

Bottles and Teats

Floating valve for calves compl., French system

→ robust design → with lug for fixation of safety chain → easy changing of teat

Type	Ref.		
Floating valve for calves compl., French system	300.0075		
Teat for automatic milk feeder, red, with round hole	300.0089		

Pellet bottle, 2,5 l, with pellet teat

→ food safe plastic → filling level scale → big opening → with hand grip → early independent intake of feed encourages a good start in a healthy growth

Type	Ref.		
Pellet bottle, 2,5 l, with pellet teat	300.0170		

Accessories and spare parts for 300.0170

Metal wall holder, galvanized, for pellet bottle	300.0172		
Pellet teat	300.0088		

Teat for calves with aluminium body, sinking

→ complete with teat → e.g. for intake of calf milk out of longitudinal troughs

Type	Ref.		
Teat for calves with aluminium body, sinking	300.0071		

Calf bar feeding kit, 1,20 m, front wall fixation

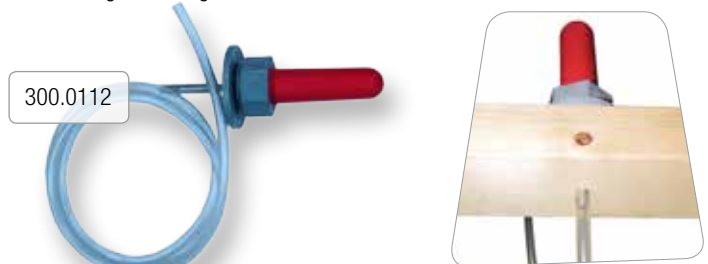

→ complete kit, tube length 1,20 m → with holder for mounting on the wall → integrated non-return valve → easy milk flow thanks to big tube diameter → multi-purpose → for example for drinking milk out of a storing tank/trough

Type	Ref.		
Calf bar feeding kit, 1,20 m, front wall fixation	300.0106		

Calf bar feeding kit, 1,50 m, wall-penetrating version

→ complete kit, tube length 150 cm → with little stainless steel pipe for better penetration through wall → integrated non-return valve → easy milk flow thanks big tube diameter → multi-purpose → for example for drinking milk out of a storing tank/trough

Type	Ref.		
Calf bar feeding kit, 1,50 m, wall-penetrating version	300.0112
