

DRINKING BOWLS FOR PIGLETS

Drinking Bowl Model 90

with brass valve

Ref. 100.0090

with stainless steel valve

Ref. 100.0909

- For suckling piglets up to 15 kg (33 lbs)
- Bowl made of **cast iron, completely enamelled**
- Smoothly running pin valve with **drip screw to attract newborn piglets to drink** (only in the version with brass valve)
- Water flow regulation by enlarging the nozzle boring
- ½" male connection from the top

RECOMMENDED FOR:

Piglets from birth up to 15 kg

INSIDER TIP!

Drinking the water very early on their own is very important for the piglet's growth!

In order to reach this SUEVIA equipped the valve of Model 90 (with brass valve) **with a drip screw**. After birth the drip screw is loosened slightly. Some water drops run down alongside the valve and drip into the bowl, which **attracts the animals to drink** and to start very early **to drink water on their own** from the bowl.

Ref.	Type	Packing Hints
100.0090	Drinking bowl Mod. 90-MS, brass valve	5 pieces/box
